

IDEAL IMPLANT®

NATURAL FEEL WITHOUT SILENT RUPTURE

Dr. XXXX and the team at (insert practice name) are pleased to announce they are now offering the IDEAL IMPLANT® Structured Breast Implant as a third option for breast augmentation and revision surgery.

The IDEAL IMPLANT offers women a natural look and feel with the peace of mind of only saline inside.

***PRACTICE NAME* Now Offering IDEAL IMPLANT**

IDEAL IMPLANT is an FDA-approved breast implant offered only through Board Certified Plastic Surgeons. Its unique internal structure creates the natural look and feel women want, yet the implant is filled only with saline, which is harmlessly absorbed by the body if ruptured. IDEAL IMPLANT is called a "structured" implant, because its internal design controls the shape and saline movement for a natural look and feel.

Benefits of IDEAL IMPLANT

- Natural Look & Feel
- Detect Rupture by Looking in the Mirror
- No Concerns of Silent Rupture
- No MRI Recommendations
- Lower Rupture Risk
- Lower Capsule Contracture Risk
- Lower Average Lifetime Surgical Cost vs. Silicone Gel
- High Patient Satisfaction Rate
- Peace of Mind
